SUMMARY ANNUAL REPORT TO MEMBERS DECEMBER 31, 2013

Dear VEBA Plan Member:

The Voluntary Employees' Beneficiary Association, which is managed by the VEBA Board of Trustees, is designed to provide medical benefits to you, your spouse, and covered dependents once you retire, become disabled, or upon your death. *The County also supports a pension plan which is separate from the VEBA*.

The VEBA Board's fiduciary responsibility to you is to supervise the general administration of Bay County's Retiree Health Benefit Plan (Plan) and invest the Plan's assets. Our Board retains professional advisors to assist us in fulfilling these duties.

We have prepared this summary report to give you a brief review of the VEBA and how it operates. We hope you will find it useful and informative. However, a summary report cannot cover all the details of the VEBA, which is governed by the provisions of the Retiree Health Benefit Plan and the VEBA's Trust Document. Additional information about the VEBA including the Plan, Trust Document and the actuarial valuation is available in the Finance Office or can be accessed via the County's website.

Respectfully submitted,

Board of Trustees Bay County VEBA

Summary Results of the Actuarial Valuation

The VEBA's financial objective is to accumulate amounts to pay all or some of the benefits promised. This objective will only be met if the Employer of the respective Employee group contributes the amounts recommended by the actuary.

The Board of Trustees of the Bay County Voluntary Employees' Beneficiary Association provides for the payment of the employer contributions as described in the Bay County Board of Commissioners Resolution No. 2001-242.

To determine an appropriate employer contribution level for the ensuing year and to gauge how the VEBA's funding is meeting this fundamental objective, an independent firm of actuaries and employee benefit consultants, Gabriel, Roeder, Smith & Company, conducts biennial actuarial valuations.

These valuations are based on the VEBA's past experience, information about current participation and financial markets, and assumptions concerning the VEBA's future demographic and economic activity. The results of the December 31, 2013 valuation regarding active and retired employees, based on the established funding objective, are summarized below:

Valuation Date	December 31, 2013
Actuarial Cost Method	Individual Entry Age Normal Cost
Amortization Method	Level dollar amount for General County, Library, Sheriff's Department, and BMCF. Level percent-of-payroll for DWS, BABH, and Road Commission.
Open/Closed Plan	General County, Library, Sheriff's Department, and BMCF are closed to new hires. All other groups are open.
Amortization Periods	 28 years closed for General County, Library, Sheriff's Department, and DWS. 26 years closed for BMCF. 24 years closed for BABH. 18 years closed for Road Commission.
Asset Valuation Method	Market value
Retirees and Beneficiaries Receiving Benefits	567
Deferred Vested Members	0
Active Plan Members	861
Total	1,428
Principal Actuarial Assumptions:	

Net Investment Return

Projected Salary Increases

6.00% for all groups except BABH which uses 7.50%3.5% pay inflation plus merit and longevity

Actuary's Opinion

It is the actuary's opinion that the contribution amounts recommended in the most recent actuarial report are sufficient to meet the System's financial objective, assuming the employer contributes those amounts to the VEBA. Gabriel, Roeder, Smith & Company is not responsible for any contributions not made to the VEBA. The funding of the VEBA is the responsibility of the employers.
